

REMARKS

As set forth in paragraph 23 of the present application, 34 refers to the through hole for receiving pin 65 and formed in threaded bolt 33 as shown in Figure 2. Thus, the objection to the drawings relating to the reference number 34 has been overcome. Additionally, Figures 3, 4, 4A and 5 have been amended in a manner believed desired by the Examiner. Thus, the objection to the drawings has been overcome.

The specification has been amended in a manner suggested by the Examiner to overcome the objection thereto. Favorable reconsideration is respectfully requested.

Claim 1 has been amended in a manner suggested by the Examiner to overcome the objection thereto. Favorable reconsideration is respectfully requested.

As clearly seen in Figure 2, extensions 32 which are received in passages 401 are of cylindrical shape and rotatably mount tubes 31 and 301. In a spirit of conciliation, claims 1 and 12 and the specification have been amended in a manner to recite operable structure. Further, claim 2 has been amended. Thus, it is respectfully submitted that the rejection under 35 U.S.C. § 112 has been overcome. Favorable reconsideration is respectfully requested.

Favorable consideration and allowance are respectfully requested.

Respectfully submitted,

Wu-Hong Hsieh

Dated: December 9, 2005.
